Boothfinder

You find us on electronica 2010

Hall A2, Booth 259

The interactive plan of the grounds gives you the option to enlarge individual halls - either via the zoom tool (and by adjusting the map using the arrows) or by selecting the desired hall in the dropdown menu - so that you can select individual stands. If you click on a stand with the left mouse button, the exhibitors' names are shown in the detail window. Stand numbers and exhibitor logos are shown independent of the chosen zoom level.
